ACTIONS

- ✓ Repellent action
- ✓ Helps to naturally repel pests insects from the animal environment
- ✓ Efficient against ticks, fleas, moskitos, mites and lice
- ✓ Suitable for cages, baskets, carpets, cushions, aviaries and poultry yards

INGREDIENTS

The nature's benefits in a repellent spray :

GERANIOL

Repellent action against ticks, fleas, moskitos, mites and lice present in the environment. Directly acts on the parasit by deshydrating its chitin. Natural and efficient.

DIRECTIONS FOR USE

Shake before use, spray from 30 cm distance directly on infested areas. Also suitable for aviaries and poultry yards. For an optimal protection, treat the crannies of your chicken coop that are favorite hiding places of mites and red lices (such as dark places, under the nests, cages, near the poultry droppings ...). Keep out of the reach of children. Do not spray on pets or plants. External use - do not swallow. In case of ingestion or if irritation persists, consult a veterinarian. Contains geraniol, can cause allergic reactions.
