HFC Highly Appetizing is the perfect daily food for all special cats and those who are not satisfied with the usual. Its superior palatability, 100% natural, comes from the high percentage of tuna, cooked directly in the packaging using a special process that preserves both taste and nutrients. Made exclusively with ingredients originally fit for human consumption, chosen by Almo Nature, now cat food. The plastic and aluminium pouch, chosen for proper product storage, can be reused to produce energy if disposed of correctly. HFC Highly Appetizing - available in 50g pouches. Almo Nature is the activist pet food brand owned entirely by Fondazione Capellino.
