HFC Natural recipes are formulated with HFC ingredients, that is, originally fit for human consumption and now used in our recipes for dogs. The same quality as we would choose for ourselves. A wide range of complementary wet foods, also single source protein, made from HFC meat or fish, ideal for stimulating even the most discerning sense of smell. Almo Nature recommends rotating recipes regularly to ensure a varied diet. Both the tin packaging and paper label are recyclable and, if disposed of properly, can be reused for more packaging. HFC Natural – HFC fillets or softly minced texture – available in 280 g or 290 g cans. Almo Nature is the activist pet food brand owned entirely by Fondazione Capellino.
